

ELEGANS CONFERENCE SERIES- Second International Conference on Life Science

CONFERENCE PROGRAM

20.03.2025	1. Day	
19:30:00-20:00	Opening ceremony	
20:00-22:15	Room 1	
	Moderator	Prof. Dr. İsmail ÖÇSOY
20:00-20:15	Uv-Assisted Synthesis and Characterisation of Silver Nanoparticles with Red Cabbage (Brassicacea Oleracea Var.Capitata F.Rubra) Extract and Evaluation of Their Antimicrobial Activity	Aynur Yamakoglu, Nimet Temur, Ayse Demirbas, Nilay Ildiz, Ismail Ocsoy
20:15-20:30	Designing of Glucose Oxdase and Magnetic Nanoparticles-Incorporated Nanoflowers with Enhanced Dual Catalytic Activites for Glucose Detection	Fatma Dalkılıç, Ismail Oçsoy
20:30-20:45	Investigation of Antimicrobial Activity of AgNPs Synthesised from Viscum album via Green Synthesis on Carbapenem Resistant Microorganisms	Fatma Dogan, Nimet Temur, Nilay Ildiz, Ismail Oçsoy
20:45-21:00	Apple Peel Extract Based Formation of Organic Inorganic Nanoflower With Intrinsic Peroxidase Mimic and Antimicrobial Activities	Mustafa Nisari

21:00-21:15	Analysis of the effect of green synthesized iron oxide nanoparticle priming on seed germination performance under arsenic stress	Musa Kar
21:15-21:30	Antimicrobial activity of green synthesized silver nanoparticles	Mohamed Mokhnache
21:30-21:45	Bactericidal potency of Zinc oxides (ZnOs) in comparison with other antibacterial agents against ophthalmic infections associated Staphylococcus aureus	Sidra Munir, Nazish Mazhar Ali, Bushra Mazhar, Memuna Ghafoor Shahid
21:45-22:00	Evaluation of formulations from Ammi visnaga (L.) Lam. (Apiaceae) used for treatment of vitiligo	Serpil Demirci Kayıran, Umay Merve Guven, Ayşe İlayda Kilina
22:00-22:15	Chemical composition of essential oils of Sideritis libanotica Labill. subsp. linearis (Benth) Bornm. (Lamiaceae)	Serpil Demirci Kayıran, Kübra Yaylagül

20:00-22:30	Room 2	
	Moderator	Prof. Dr. Mehmet CANDAN
20:00-20:15	Tetraneura (Tetraneurella) akinire Sasaki, 1904: New Contribution to Türkiye Aphid Fauna from Istanbul Province	Gizem Başer, Gazi Görür, Özhan Şenol, Hayal Akyıldırım Beğen, Gül Kavaklı
20:15-20:30	Potential Effects of different antibacterial agents Against nosocomial strains of Streptococcus pneumoniae isolated from ophthalmic infections	Marriam Wasif, Nazish Mazhar Ali, Memuna Ghafoor Shahid
20:30-20:45	Antibacterial potential of Lactobacilli against pathogenic bacterial strains from pulmonary infections of infants	Maham Chaudhry, Nazish Mazhar Ali
20:45-21:00	Screening and antibacterial susceptibility pattern of Salmonella and Shigella species among children exhibiting diarrheal infections	Nazish Mazhar Ali, Hamna Junaid, Bushra Mazhar, Memuna Ghafoor Shahid
21:00-21:15	Compositions with antimicrobial and antibiofilm-forming properties based on medicinal plants	Kryvtsova M, Kostenko Y., Sklar I., Hoblyk E., Kolesnyk O., Spivak M.
21:15-21:30	Synthesis of Ergot Alkaloids by Penicillium citrinum and its determination through analytical techniques	Memuna Ghafoor Shahid, Nazish Mazhar Ali, Gul Zareen Ghafoor and Ahmed Gulzar
21:30-21:45	Extraction and Biotechnological application of commercially important laccase from Rhizopus oligosporus MN-1 under submerged fermentation	Sania Zafar, Amna Tanveer, Memuna Ghafoor Shahid, Nazish Mazhar Ali, Fatima Arif
21:45-22:00	8-Hydroxydeoxyguanacine (8-OHdG) in serum Iraqi Patients with breast cancer Before and After Radiation	Athraa Abdulameer Mohammed, Wisam Kadhum H. Al-Hashemi, Sabbar Shokry Albayaty, Ibrahim Ramzi Hadi
22:00-22:15	Lichens and closely related fungi of oak groves of Belarus	Aleksandr Yatsyana
22:15-22:30	Lichenicolous mycobiota of the Russian Meta-arctic	Mikhail Zhurbenko
